Regular Meetings are held at City Hall, 200 North Spring Street, Room 1060, in Los Angeles, CA 90012. The agendas for Board meetings contain a brief general description of those items to be considered at the meetings. Board Agendas are available at the Department of Animal Services (Department), Administrative Division, 221 North Figueroa Street, 5th Floor, Los Angeles, CA 90012. Board Agendas may also be viewed on the 2nd floor Public Bulletin Board in City Hall East, 200 North Main Street, Los Angeles, CA 90012. Internet users may also access copies of present and prior agenda items, copies of the Board Calendar, MP-3 audio files of meetings as well as electronic copies of approved minutes on the Department’s World Wide Web Home Page site at http://www.laanimalservices.com/CommissionAgendas.htm

Three (3) members of the Board constitute a quorum for the transaction of business. Some items on the Agenda may be approved without any discussion.

Please join us at our website: www.LAAnimalservices.com
The Board Secretary will announce the items to be considered by the Board. The Board will hear the presentation on the topic and gather additional information from Department Staff. Once presentations have finished, the Board President will ask if any Board Member or member of the public wishes to speak on one or more of these items. Each speaker called before the Commission will have one (1) minute to express their comments and concerns on matters placed on the agenda.

**PUBLIC INPUT AT BOARD MEETINGS – Public Participation on Agenda Items.** Members of the public will have an opportunity to address the Board on agenda items after the item is called and before the Board takes action on the item, unless the opportunity for public participation on the item was previously provided to all interested members of the public at a public meeting of a Committee of the Board and the item has not substantially changed since the Committee heard the item. When speaking to an agenda item other than during Public Comment (see Public Comment below), the speaker shall limit his or her comments to the specific item under consideration (California Government Code, Section 54954.3).

**Public Comment.** The Board will provide an opportunity for public comment at every regular meeting of the Board. Members of the public may address the Board on any items within the subject matter jurisdiction of the Board as part of Public Comment.

**Speaker Cards.** Members of the public wishing to speak are to fill out one speaker card for each agenda item on which they wish to speak and present it to the Board secretary before the item is called.

**Time Limit for Speakers.** Speakers addressing the Board will be limited to one (1) minute of speaking time for each agenda item except in public comment which is limited to three (3) minutes. The Chairperson, with the approval of a majority of the Board, may for good cause extend any speaker’s time by increments of up to one (1) minute. Total speaker time on any agenda item will be limited to ten (10) minutes per item and fifteen (15) minutes for Public Comment, unless extended as above.

**Brown Act.** These rules shall be interpreted in a manner that is consistent with the Ralph M. Brown Act, California Government Code Section § 54950 et seq.

**STANDARDS OF CONDUCT.** Speakers are expected to behave in an orderly manner and to refrain from personal attacks or use of profanity or language that may incite violence.

All persons present at Board meetings are expected to behave in an orderly manner and to refrain from disrupting the meeting, interfering with the rights of others to address the Board and/or interfering with the conduct of business by the Board.

In the event that any speaker does not comply with the foregoing requirements, or if a speaker does not address the specific item under consideration, the speaker may be ruled out of order, their speaking time forfeited and the Chairperson may call upon the next speaker.

The Board, by majority vote, may order the removal from the meeting of any speaker or audience member continuing to behave in a disruptive manner after being warned by the Chairperson regarding their behavior. Section 403 of the California Penal Code states as follows: “Every person who, without authority of law, willfully disturbs or breaks up any assembly or meeting that is not unlawful in its character, other than an assembly or meeting referred to in Section 302 of the Penal Code or Section 18340 of
the Elections Code, is guilty of a misdemeanor”.

**VOTING AND DISPOSITION OF ITEMS** – Most items require a majority vote of the entire membership of the Board (3 members). When debate on an item is completed, the Board President will instruct the Secretary to "call the roll". Every member present must vote for or against each item; abstentions are not permitted unless there is a Conflict of Interest for which the Board member is obliged to abstain from voting. The Secretary will announce the votes on each item. Any member of the Board may move to "reconsider" any vote on any item on the agenda, except to adjourn, suspend the Rules, or where an intervening event has deprived the Board of jurisdiction, providing that said member originally voted on the prevailing side of the item. The motion to "reconsider" shall only be in order once during the meeting, and once during the next regular meeting. The member requesting reconsideration shall identify for all members present the Agenda number and subject matter previously voted upon. A motion to reconsider is not debatable and shall require an affirmative vote of three members of the Board.

When the Board has failed by sufficient votes to approve or reject an item, and has not lost jurisdiction over the matter, or has not caused it to be continued beyond the next regular meeting, the issue is again placed on the next agenda for the following meeting for the purpose of allowing the Board to again vote on the matter.

Los Angeles Animal Services may deny a permit application or revoke a previously issued permit for a specific circus or circus act, exhibition, animal act, or display of one or more animals. Such permit denial or revocation may or may not affect other animals that may be included in the same permit application, depending on whether or not those other animals are included in the permit denial or revocation. Applicant must conform to the requirements of the permit for animals that are not affected by the permit denial or revocation.

Los Angeles Animal Services will base its decision on whether to issue a permit based on all information in the application and related documentation, provided that Applicant meets all the requirements for the permit.

Report to the Board of Animal Services Commissioners  
Edward A. Boks, General Manager

COMMISSION MEETING DATE: May 27, 2008  
PREPARED BY: Linda Barth

REPORT DATE: May 22, 2008  
TITLE: Assistant General Manager

SUBJECT: Revised Requirements for Application and Permit for Circuses and Animal Acts and Exhibitions, which Include Elephant Walks

BOARD ACTION RECOMMENDED:

That the Board approve revised requirements that apply to circuses, exhibitions, acts, displays, or any other lawful exhibits involving animals, which include but are not limited to elephants, any other animals requiring restricted species permits pursuant to California law, camels, zebras, ostriches, emus, llamas, or alpacas, as detailed in the body of this report and the attached draft requirements sheet, and direct staff to implement the requirements immediately.

SUMMARY:

At the meeting of January 14, 2008, the Board considered and approved with minor modifications a set of requirements to be met by persons applying for a permit, under Los Angeles Municipal Code 53.50(c), for exhibitions involving inherently dangerous wild animals. Development of the requirements was originally motivated by discussion of the Board about setting policy for Elephant Walks or similar animal parades by a circus or exhibition. The requirements approved in January reflected staff experience and input from others in the humane community that often deal with wild animals. As approved, the requirements applies to exhibitions or any other permits applied for which involve elephants or any other inherently dangerous wild animals, as defined in California Code of Regulations, Title 14 (Manual 671), §2157: wild cats, elephants, nonhuman primates, bears, and wolves.
The first permit situation under which the new requirements were activated was with Circus Vasquez, which operated for several weeks in the San Fernando Valley. Circus Vasquez had an elephant show (three elephants) which was operated by a subcontractor; they also had tigers and zebras, handled by Circus employees. Based on the original Requirements, specifically in connection with United States Department of Agriculture (USDA) citations and related actions, the Circus was directed to have the elephants removed from the City. Later, questions also arose relative to the handling, treatment, and past USDA compliance for the tigers and the zebras, however permission for those animals was not revoked. From these incidents, it became clear that expansion and refinements of the initial Requirements would assist in our goal to insure with a high degree of confidence that animals are and have been treated safely and humanely, and that handlers and spectators will be safe.

For assistance in developing modifications to the Requirements, Staff has consulted extensively with staff from both the USDA and from California Fish and Game to understand their practices, permitting, regulations, and standards. We continued to consider and integrate input from members of the public, including both permittees and members of the humane community with subject-matter expertise in wild animals. Several branches of the City Attorney’s office participated in meeting and discussions as well, and provided input in the draft presented today, which is attached.

A major change proposed in the Requirements is to focus on the type of permit being issued, rather than attempting to limit coverage to a select list of species. Therefore, we more expansively review the safety and humane record of applicants, and can require applicable high standards for elephants, zebras, raptors, dogs, horses, lions, tigers, bears, and any other animals that might be used in an act or display. Other revisions expand, add, or more accurately describe:

- Liability insurance requirements for permits on public and private property.
- Testing requirements for Tuberculosis in elephants, requiring a negative test within the last twelve months. All animals’ health records must be provided.
- Need for a description of the animal activity or exhibition to demonstrate that the animal(s) will be healthy and safe.
- Written plan for both public safety and for the quick and safe recapture or destruction of an animal in the event of an escape.
- Language regarding USDA citations so that appropriate USDA terminology is used in context. A requirement was added that applicants disclose any official notices of alleged violations; or any stipulations, consent decrees or settlements with the USDA within the past ten years.
- Informed Consent requirements.
- California Fish and Game permit pre-requisites.
- Compliance for both primary applicant and any sub-contractors used.
Subject: Revised Requirements for Application and Permit for Circuses and Animal Acts and Exhibitions, which Include Elephant Walks

In some cases, such as with voluminous health and inspection records, we have modified the requirement to provide or make available for inspection, to avoid becoming a repository for exhibitors’ records. In all cases where we have made this efficiency allowance, documents must be presented and inspected two weeks in advance of the event, just as in the case of provided records.

Filming is expressly exempted and as previously reported, will be the subject of tailored requirements that recognize the short application periods typical in filming, as well as the fact that there are a number of local handlers who do most of the work, and other factors.

FISCAL IMPACT:

In general, establishing and enforcing these Requirements have no significant revenue or expense implications, since permit applications include fees to offset processing and inspection costs. The fees charged for permits in all categories, including Circuses and Animal Acts and Exhibitions, are currently set in the Los Angeles Municipal Code, but the Department has submitted a request to the Mayor and City Council to change the fees based on a cost recovery formula. That formula may be modified from time to time as staff documents increases or decreases in the cost of processing these applications.

Re: Animal Acts & Exhibitions, Circuses, Zoos

Effective March 1, 2013 the City of Los Angeles Department of Animal Services requires a 30 day advance notice for permit applications. Additional, there are specific requirements and disclosures that all Animal Acts & Exhibitions, Circuses, and Zoos must meet prior to permit approval. Please note, this includes health records which may require additional time for you to receive and submit on time.

This new enforcement procedure is a result of additional requirements by the Animal Services Board of Commissioners in 2008. A checklist and disclosure sheet has been enclosed to use in providing all required information and documentation to the City of Los Angeles Department of Animal Services.

COMMISSION MEETING DATE: November 12, 2013
PREPARED BY: John Chavez

REPORT DATE: October 18, 2013
TITLE: Asst. General Manager

SUBJECT: APPROVAL TO RELEASE WILD AND EXOTIC ANIMAL VETERINARIAN REQUEST FOR QUALIFICATIONS (RFQ)

BOARD ACTIONS RECOMMENDED:

1. APPROVE the release of a Request For Qualifications (RFQ), subject to City Attorney approval as to form and legality, to solicit firms or individuals to inspect circus elephants, tigers, and other wild and exotic animals performing in the City.

2. REPORT BACK with the list of qualified service providers.

SUMMARY

On February 12, 2013, the Commission approved the release of an RFQ to establish a list of qualified veterinarians to assist the Department in the inspection of circus animals. As a result of this RFQ, the Department established a list of several veterinarians who were qualified to perform this task. One of these (Dr. Rhonda Aliah) was selected to inspect the Ringling Bros.’ circus elephants in July 2013.

At its October 8, 2013 meeting, the Commission recommended that additional qualified veterinarians could be added by advertising the RFQ in the Association of Zoos & Aquariums, in addition to the California Veterinary Medical Association and the American Veterinary Medical Association.
USE OF WILD AND EXOTIC ANIMAL VETERINARIANS

Veterinarians with experience with wild and exotic animals are needed to inspect travel containers, animals' temporary quarters, and circus conditions for elephants, tigers and other wild and exotic animals performing in the City. Establishing a list of qualified veterinarians will facilitate the accomplishment of those tasks.

These inspections include checking the travel compartments to make sure that they meet standards for approved accommodations (space, cleanliness, etc.), reviewing medical records on each animal, accompanying the elephants as they walk to their temporary shelter, and conducting spot inspections of elephants and other animals before, during and after their performances. The veterinarian is also required to provide the Department with a comprehensive report of his/her findings.

The RFQ (attached) requires proposers to submit a Statement Of Qualification to provide veterinary services on a pre-qualified, on-call basis. It is anticipated that a list of several veterinarians will be established. The Department is hoping that the proposed cost will be below $5000 and is requesting proposers to use that as their target.

RFQs will be evaluated and scored. Applicants receiving a score of 75% or more will be considered qualified. The Department will report back on the list of qualified applicants. Service providers will be contracted on an as-needed basis.

Cost, best value and/or availability will be considered in the choice of service providers for each assignment. Contracts will be subject to City Attorney review and approval as to form and legality. The Department will seek Board approval to negotiate and execute a contract if the amount exceeds $5,000. The Department will report back to the Board with the results of this RFQ.

FISCAL IMPACT

There is no impact on the General Fund. The veterinarian will be paid using Animal Welfare Trust Funds. The Department expects that this will amount to between $5,000-10,000 per year.

APPROVED

COMMISSION MEETING DATE: November 12, 2013  PREPARED BY: John Chavez

REPORT DATE: October 18, 2013  TITLE: Asst. General Manager

SUBJECT: REQUEST TO ACCEPT ASPCA DONATION FOR NEW HOPE ADOPTIONS

BOARD ACTIONS RECOMMENDED:

That the Board, subject to the approval of the Mayor and Council:

Authorize the General Manager of the Animal Services Department, or her designee, to:

1. Accept the American Society for the Prevention of Cruelty to Animals (ASPCA) grant funds in the amount of $50,000 to pay for New Hope adoption fees. The grant period is through January 1, 2014;

2. Execute the Grant Memorandum of Understanding (MOU) with the ASPCA on behalf of the City and submit all necessary documents relative to the grant award, subject to the approval of the City Attorney as to form and legality;

3. Authorize the Department of Animal Services to:
   a. Deposit grant receipts in the Animal Welfare Trust Fund (Fund 859);
   b. Spend up to the grant amount in accordance with the MOU;

4. Authorize the Controller to establish a grant receivable in Fund 859 and establish an appropriation account titled ASPCA New Hope Adoptions, account number to be determined, within Fund 859 for the receipt and disbursement of the ASPCA grant award; and:

5. Authorize the Department of Animal Services to prepare Controller’s instructions for any technical adjustments, subject to the approval of the City Administrative Officer, and authorize and instruct the Controller to implement the instructions.
SUMMARY

The Department of Animal Services seeks approval to execute a Memorandum of Understanding (MOU) with and accept a $50,000 grant award from the American Society for the Prevention of Cruelty to Animals (ASPCA). These funds would be used to offset the cost of the $40 spay/neuter deposit required of New Hope partners. 

Best Friends Animal Society will complement this New Hope adoption effort by providing $50,000. In total, these efforts will raise $120,000. (A $20,000 check was already received from ASPCA, $50,000 from ASPCA is addressed in this report, and a $50,000 donation from Best Friends. The latter donation will be addressed in a separate report.)

BACKGROUND

There are 226 “New Hope” partners working with the Department of Animal Services. These 501(c)(3) nonprofit organizations serve as rescue groups who adopt shelter animals and put them into homes. In 2012-13, New Hope partners adopted 6,662 animals.

New Hope partners are required to pay a $40 spay/neuter deposit. (Los Angeles-based New Hope organizations are required to pay a $5.50 tax, in addition to the deposit.) This deposit is used to sterilize an animal -- as required by state law – before an animal is released from the shelter.1

To spur adoptions from New Hope partners, the ASPCA and Best Friends Animal Society are willing to pay for the $40 adoption costs. This initiative would begin in October and end in January 2014.

INITIATIVES TO INCREASE SHELTER ADOPTIONS

At the October 8, 2013 Board of Animal Services Commission meeting, the General Manager was pleased to announce that the ASPCA recently donated $20,000 to the Department to pay for adoption fees for New Hope rescues. Because the amount was under $25,000, the General Manager was able to accept the check without Board/City Council approval. However, at this same meeting, she indicated that ASPCA may provide additional funding. Since that Board meeting, this promise of additional funding has turned out to be the case. Due to the amount, $50,000, Board and City Council approval is needed.

---

1 At press time, the City Council is scheduled to vote on Wednesday, October 23, 2013 on a change to the $40 spay/neuter deposit arrangement. Animal Services is proposing to increase this to a $50 flat-fee that can be used for sterilization, microchips, and/or vaccinations. If approved, there would no longer be a deposit dedicated solely to spay/neuter surgery (C.F. 13-1190).
To add to this good fortune, Best Friends Animal Society, which currently operates an adoption/spay-and-neuter clinic at the City's Northeast Valley shelter, will complement the ASPCA’s grant by paying for New Hope adoptions as well.

Best Friends is pledging $50,000 to increase New Hope-related adoptions. Because this amount is over $25,000, the Department will request authority to accept this in a separate report.

To maximize the use of these donations, these adoptions subsidies will be structured in the following manner:

1. Best Friends will pay the New Hope adoption fees for those rescue groups who are part of the “No-Kill LA” coalition. (There are 34 New Hope partners who are members of this coalition.)

2. The ASPCA will pay the New Hope fees associated with all other rescue groups.

In 2012, Best Friends kicked-off the “No-Kill LA” (NKLA) initiative. This coalition of animal welfare organizations, city shelters and individuals is dedicated to ending the killing of healthy and treatable pets in Los Angeles shelters. The goal of NKLA is for 2017 to be the year when 90% of dogs and cats entering shelter leave alive.

The plan is to provide spay/neuter services where they are needed most and increase adoptions through the combined efforts of the NKLA coalition. Best Friends provides grants to coalition partners for every pet they adopt to a new home over the number they adopted last year, as well as funding spay/neuter projects for pet owners who can’t afford to have their pets fixed. (For more information, see Council Files 13-0600-S2 and 13-0600-S3.)

Based on prior year New Hope adoption figures, the cost to pay for Best Friends’ NKLA “coalition” adoptions from October 2013 through January 2014 is expected to be $22,000. ASPCA is estimated to pay $57,000 during this same period.

**FISCAL IMPACT**

Approval of the recommendations in this report will provide $50,000 in funding to the Animal Welfare Trust Fund. Acceptance of the grant will have no additional impact on the General Fund and is in compliance with the City’s Financial Policies in that grant funds and currently budgeted funds will cover the cost of the program.

SUMMARY

The Department of Animal Services seeks approval to execute a Memorandum of Understanding (MOU) with and accept a $50,000 grant from Best Friends Animal Society. These funds would be used to offset the cost of the $40 spay/neuter deposit of New Hope partners who are part of the “No-Kill LA” coalition (discussed below).

The Association for the Prevention of Cruelty to Animals (ASPCA) will join Best Friends in this effort to increase New Hope adoptions effort by providing $70,000. (The ASPCA’s donation is discussed in a separate report.)

BACKGROUND

There are 226 “New Hope” partners working with the Department of Animal Services. These 501(c)(3) nonprofit organizations serve as rescue groups who adopt shelter animals and put them into homes. In 2012-13, New Hope partners adopted 6,662 animals.

Best Friends Animal Society, which currently operates an adoption/spay-and-neuter clinic at the City’s Northeast Valley shelter, is pledging $50,000 to increase New Hope-related adoptions. Because this amount is over $25,000, both Board and City Council authority is required to accept the donation.

When combined with the ASPCA’s donation ($70,000), there is $120,000 dedicated to increase shelter adoptions via New Hope partners. To leverage this six-figure total, these subsidies will be structured in the following manner:

1. Best Friends will pay the New Hope adoption fees for those rescue groups who are part of the “No-Kill LA” coalition. (There are 34 New Hope partners who are members of this coalition.)

REPORT DATE: January 9, 2008
TITLE: Assistant General Manager

SUBJECT: Policy to Guide the Handling of Permit Applications which Include Elephant Walks and Similar Events for the Public (Revised Report)

BOARD ACTION RECOMMENDED:

That the Board adopt requirements for issuing permits for elephants or other inherently dangerous wild animals, as detailed in the body of this report, and direct staff to implement the requirements immediately.

SUMMARY:

At the meeting of October 9, 2007, the Board considered a report requesting a policy statement regarding Elephant Walks or similar animal parades by a circus or exhibition, to guide the permit processing responsibilities of Department staff. This matter was prompted by a summer 2007 engagement at Staples Center of the Ringling Brothers and Barnum & Bailey Circus, which had properly applied for a circus permit. As in past years, the circus permit paperwork also notified the Department of a traditional Elephant Walk on public streets to bring the animals from the railroad tracks to the site of the Circus engagement. Ultimately, City staff determined planning and safeguards were satisfactory, and there were no incidents for the 2007 Elephant Walks. However, historically and in other locations there have been Elephant Walks which have resulted in an elephant rampage.

Department Staff sought a Policy Statement to guide staff in determining approval or disapproval for future event applications. The conclusion of the discussion at the
meeting of October 9, 2007, was that Department staff should provide the Board with additional information.

With input from staff and from appropriate and experienced subject-matter experts external to the Department, including Dr. Erna Toback, of Santa Monica College, and Catherine Doyle, a leader in elephant welfare campaigns, a schedule of recommended requirements is submitted for consideration and adoption by the Board. The requirements would apply to exhibition or any other permit applied which involves elephants or any other inherently dangerous wild animals, as defined in California Code of Regulations, Title 14 (Manual 671), §2157, Unique Identification of Mammals, which reads in part, “…this identification shall include the following species of mammals: wild cats, elephants, nonhuman primates, bears, and wolves.”

The required actions or document submittals described below must be satisfied by applicants prior to issuance of a permit under Municipal Code section 53.50(c), which in fact expressly calls for an investigation prior to issuance.

Applicants must meet the following conditions:

1. Hold a liability insurance policy with an insurer authorized or approved to write such insurance in this state that covers claims for injury or damage to persons or property in an amount of not less than two million dollars for each facility.

2. Provide proof that within the calendar year any and all elephants on display have been tested and are free of Tuberculosis.

3. Provide a written plan for the quick and safe recapture or destruction of an inherently dangerous wild animal in the event an animal escapes. This should include but not be limited to the applicant’s written protocols for training staff on methods of safe recapture of escaped inherently dangerous wild animals.

4. Have access to appropriate drugs for chemical immobilization and have a staff member who has firearm training and proficiency in order to recapture an escaped inherently dangerous wild animal.

5. Must disclose if any animal has a history of being dangerous. This includes, but is not limited to, disclosure of animals trucked to locations, not walked, because of unpredictable, dangerous behavior, and animals that have previously attacked or escaped direct control and supervision of handler(s).

6. Must disclose all previous names of all animals.

7. Must provide health histories for all animals.
8. Applicant has no criminal record and must disclose any and all employee criminal record(s).

9. Applicant has not been cited within 5 years by USDA under the Animal Welfare Act for 1) inappropriate provision of veterinary care 2) inappropriate handling of animals causing stress or trauma 3) inappropriate provision of food, water, or shelter.

10. Applicant has not been in violation of California state law regarding elephants (prohibits use of martingales, block and tackle, etc.) or any other animal handling regulations.

11. Applicant must meet an informed consent provision by providing written information to any individuals entering the site of the permitted animal display, explaining that an inherently dangerous wild animal is present and there is risk of injury or death.

FISCAL IMPACT:

Events such as would be covered by this Policy Statement are rare and would number only a few each year. Permit applications include fees to offset processing and inspection costs. These fees may change in coming fiscal years to be based on a cost recovery formula, but implementing the requirements above have no significant revenue or expense implications, while the health and safety of both animals and people would be improved.
