B. Assembly Bill 564 – Personal Income Tax Deduction for Municipal Shelter Spay and Neuter Fund

Commissioner Secunda presented a motion to amend the General Manager’s report. In addition to the Mayor and Council’s support of AB 564 that the bills author be requested to amend the bill to read that the Food and Agriculture Code Section 30525 be changed to read that:

“The responsible city, county or counties may specify the means by which the dog owner shall provide proof of his or her dogs spay or neuter surgery including but not limited to electronic transmission or facsimile.”

Commissioner Riordan commented that the Franchise Tax Board, the State Controller and the Department of Food and Agriculture will deduct a portion of the donated fees for administrative costs and a cap for such costs is only stated for the Department of Food and Ag. She supports the bill but is concerned about how much revenue will actually reach eligible municipal shelters. She suggested that all administrative fees should be capped and that this be communicated to Council along with support of the bill.

Public Comment

Phyllis Daugherty: Suggested that the electronic transmission of spay and neuter process will be problematic. She suggested that the electronic transmittal issue be reported separately.

Commissioner Riordan made a motion to approve the General Manager’s recommendation with a recommendation to cap the administrative fees. Commissioner Ramsayer seconded the motion and the motion passed 4-0.

C. Assembly Bill 610 – California Pet Lover’s License Plate

Public Comment

Lindsay Espinoza: Reported that 2,600 pre-orders have been received for the plates. Current regulations require that 7,500 plates be ordered prior to the plates being approved for production.

Commissioner Riordan was concerned that additional efforts should be made to obtain additional pre-orders prior to changing the minimum number of plates required. By lowering the minimum number of plates, unforeseen circumstances may allow objectionable plates to be issued.

Commissioner Ramsayer indicated that in June of last year a press conference encouraged the pre-ordering of license plates. She is for lowering the number of license plates required.
Commissioner Ramsayer made a motion to approve the General Manager’s recommendation as written. Commissioner Secunda seconded the motion and the motion passed with 3 votes and 1 abstention.
